REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The arguments in Applicant's brief are well taken. The first question this Examiner was faced with was the determining the validity of the 35 USC 103 rejections. Applicant makes a valid argument on page 16 of the Brief (see the heading Non-analogous Art). The Examiner is persuaded by this argument and agrees that "one skilled in the art of manual lubrication would not be motivated to combine the non-analogous automobile gasoline pump nozzle disclosed by Shida with either of the lubrication systems disclosed by Tontaro and Hyvonen." The Examiner point to for example, Totaro which show a manually operated grease gun. There is no teaching in this reference for metering the lubricant, and as such, there would be no reason to modify a seemingly standard grease gun to be computer controlled. The motivation to combine being lacking, and the Examiner points to Applicant's arguments on page 17 of the brief. This argument was persuasive.

In summary, the rejection is withdrawn and the claims allowed based on the lack of motivation to combine and the use of completely non-analogous art to hindsight reconstruct Applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Fenstermacher whose telephone number is 571-272-7102. The examiner can normally be reached on 10:30-7:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
